Date.	To whom sent.	Notes and instructions.

THE KANARA ELECTRIC SUPPLY COMPANY LIMITED

SIRSI (N.Kanara)

Conditions and Miscellaneous Charges

for

the Supply of Energy

Sirsi Electric License 1949

SIRSI ELECTRIC LICENCE., 1949.

THE KANARA ELECTRIC SUPPLY CO. LTD. SIRSI. (N. KA.)

CONDITIONS AND MISCELLANEOUS CHARGES FOR THE SUPPLY OF ENERGY

PART I

CONDITIONS OF SUPPLY

1. Application for Supply - (1) An application for the supply of energy shall be made to the licensee in the form of a requisition attached here to (Annexure A), of which copies are obtainable from the licensee. The requisition shall be signed by the owner or occupier of the premises for which the supply is required. Any assistance or information required in filling up the form will be given to the applicant at the office of the licensee

2) If the supply is required for motors the applicant shall state the purpose for which the motors are required, and shall also specify the amount of the current in amperes at full load which may be required for each motor.

3) A requisition under clause V (4) of the Schedule to the Indian Electricity Act 1910, requiring the licensee to provide distributing mains through out a street or part thereof shall be in the form of Annexure C attached hereto.

2. Service Lines - The licensee shall lay free of charge 100 feet of service lines from his nearest distributing main out side the limits of the property in respect of which the requisition is made. Any length in excess of 100 feet, as defined above and the whole of the service line within the limits of the property in respect of which the application is made shall be paid for by the applicant.

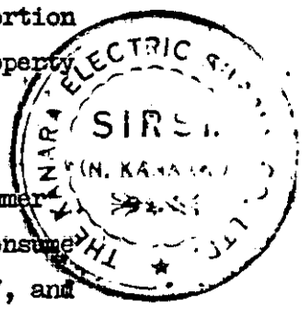
3. Notice for fixing the position of service - Upon receipt of a requisition, notice shall be sent tothe consumer, or to the wiring contractor acting on the consumers, behalf for his representative to meet the licensee's engineer, for the purpose of inspecting the premises and fixing the point of entry of the supply mains and the position of the mains, cut-outs and meters. The Licensee will not fix its meter or allow the same to remain in any position which entails the entry of its employees in to PARDHA or religious quarters.

4. Quotations, etc., for laying service lines. - The position for service having been agreed upon as provided in condition 3 above, the licensee shall there-after submit to the applicant a quotation of the estimate of cost carrying out the work. The quotation having been accepted, the applicant shall be required to deposit the amount of the estimate with the licensee before the service is laid. The deposit having been duly paid, orders shall be issued for the work to

for the work to...

be put in hand and the amount so deposited shall be subequently adjusted, if necessary, on completion of the figu -res of the actual cost of the service line. Other conditions being equal, service lines shall as far as possible be laid in the order of the dates of receipt of the deposit money.

Note - The service line, notwithstanding that a portion of the cost has been paid for by the consumer, shall remain the property of the licensee by whom it is to be maintained.



5. Wiring on consumer's premises.- For the protection of the consumer and the public generally, it is necessary that the wiring on the consume -rs premises should confirm to the Indian Elecrticity Rules, 1937, and the rules of the Fire Insurance Company in terms of which the building is insured and be carried out by a licensed electrical contractor. As sooh as the consumers installation is completed in all respects and tested by the consumers contractor, the consumer should submit to the licensee the wiring contractors' completion and test report. A form for this purpose shall be supplied by the licensee. It is important that the conditions named therein are fully complied with. as otherwise there will be a delay in obtaining the supply.

As required by the rule 48 of Indian Elect -ricity Rules 1937, no electrical installation work (including addition -s alterations, repairs and adjustments to existing installations),excep -t such replacements of lamps. fans, fuses, switches and other component parts of the installations as in no way alters the capacity and charact -er of the installation, shall be carried out upon the premises on behalf of any consumer or owner for the purposes of supply of energy to such consumer or owner, except by an elecrtical contractor licenseed by tne Government in this behalf and under the direct supervision of a person holding a certificate of competency issued by Governmant. Any person committing a breach of rule 48 shall render himself liable to punishment under rule 123 of the said rules.

6. Inspection and testing of installation by the licensee - (a.) Upon receipt of the test report the licensee shall notify to the consumer the time and the day when the licensee's representative proposes to inspect and test the installation. It will then be the duty of the consumer to arrange that a representative of the wiring contractor employed by him is present at the inspection to give the, the licensee or his representa -tive any information required by him concerning the installation.
(b)No connection shall be made untill the consumers installation has been inspected and tested by the licensee and found satisfactory.No charge shall be made for the first test by the licensee, but subsequent tests due to faults found at the initial test shall be charged for in accordance with Part II of these conditions.The licensee does not accep -t responsibility with regards to the maintanence or testing of wiring on consumers premises.

(c) Before taking the insulation test of the installation the wiring must be complete in everu respect. All fittings such as lamps. fans, cookers, motors etc., must be connected up, fuses inserted and all switches switched in the 'on' position before the tests are carried out.Temporary wires or fittings or ends, should not be included in the installation and no part of the work should be left incomplete.

(d) The insulation resistance of the entire installation to earth shall be tested from the installation side of the licensee's terminals.

(e) The licensee shall not connect the conductors and fittings on the consumers premises with his works, unless he is reasonably satisfied that the connection will not at the time of making the connaction cause a leakage from those conduc--tors and fittings exceeding one five thousandth part of the maximum suplly demanded on the consumers premises.

7. Extensions and alterations :- Should the consumer at any time after the supply of energy has been commenced, desire to increase the number or the size of light, fans, motors etc., on his premises, or in any way to alter the position of his wiring therein, notice thereof shall be sent in writing to the licensee whose representative will call and inspect the alteration and, if necessary change the meters and fuses and alter the service line, the cost of the service line shall be borne by him.Failure to give such notice may derange the supply system and will render the supply liable to be summarily discontinued.

8. Failure of supply :- Should at any time the licesee's service fuse or fuses fail, notice thereof should be sent to the licensee's office or if there are sub-stations to the nearest sub.station.Only authorised employees bearing the badge of the licensee are permitted to replace thesefuses in the licensee's cut-outs.Consumers are not allowed to replace thes fuses and they will render themse--lves liable to a heavy penalty if the licensee's seals placed to protect his apparatus are broken. The licensee does not allow his employees to carry out repairs to the consumers installation.If the failure of supply is due to any cause other than a fault in the licensee's apparatus the consumer will be charged a fee of Re.1 for the attandance of the fuseman in accordance with Part II of thes--e conditions.

9 Access to premises and apparatus :- The licensee's servants are entitled at all reasonable times to enter upon the premises to which energy is supplied for the purpose of reading the meters and for other purposes connected with the apparatus belonging to the licensee.

10.Accuracy of meters:- Should the consumer dispute the accuracy of any meter which is not his own property, he may upon giving notice and paying the prescribed fee, have the meter tested by the licensee or the Electric Inspector Bombay, in accordance with section 26 of Indian Electicity Act, 1910. In the event of the meter being tested by the licensee and found to be beyond the limits of accuracy as prescribed, the testing fee shall be returned and the amount of the bill adjusted in accordance with the result of the test taken with respect to the meter readings of the three months prior to the month in which the dispute has arisen due regard being paid to the conditions of occupancy during

.—Conditions of occupancy during.....

the month under dispute and during the previous three months. In the event of the test being undertaken by the Electrical Inspector Bombay and the meter being found to be incorrect, and the period during which the meter shall be deemed to have been incorrect, and the amount of energy supplied to the consumer during this period shall be decided by the Electric Inspector Bombay whose decision shall be final. The licensee shall remove the meter for the purpose of testing it in his laboratory.

11 Deposits:- The consumer may be required by the licensee to enter into a contract in the form of Annexure B hereto appended or make a declaration in lieu of the written contract on one rupee eight annas or would be in force from time to time, stamp and to make a cash deposit or to give security in Government Promissory Notes or other approved securities for the payment of his monthly bills for energy supplied and for the value of the meter and other apparatus installed on his premises In the event of no contract having been entered into between the licensee and the consumer, the latter after supply of energy has once commenced, shall be bound by the terms and conditions of supply herein set forth.

The licensee is prepared to allow interest as follows upon deposits lodged with him against (a) regular payment of energy bills, (b) a reasonable return under clause V and/or VI of the Schedule to the Indian Electricity Act 1910. In both the above cases deposits must be made in cash if the sum deposited is below Rs 100 and in cash or Government securities if the sum is Rs 100 or exceeds that amount. No interest shall be allowed upon deposits below Rs 50.

On deposits of Rs 50 or more which may be made in cash, interest shall be allowed at a rate equal to the Post Office Savings Bank rate in force from time to time.

On deposits made in Government Securities the interest accruing thereon willbe collected periodically and passed on to the depositor less 2 per cent which will be retained by the licensee to cover the cost of collection etc. When Government securities are deposited the amount of the deposit shall be calculated at the current market value of the said securities and not upon their face value.No interest shall be allowed on deposits lodged against the cost of service lines, as the account is only of a temporary nature.

12 Notice of removal :- Consumers about to vacate or sublet their premises shall give to the licensee a full seven days notice in writing as to whether the premises should be disconnected or only the meters should be read and the bills submitted; otherwise the licensee cannot guarantee that the meter readings will be taken on the required date.Failing such notice, the consumer will be held responsible for all energy consumed on the premises until the expiration of 24 hours from the day on which notice of removal in writing has been received at the office of the licensee.

13. Payment of bills :- (1) Bills should be paid at the licensees office within eight days from the date of thier presentation.

(2) Any complaints with regard to the accuracy of the bills shall be made in writing to the licensee and the amounts of such bills shall be paid under protest within the said period of eight days. The amounts of bills paid under protest will be regarded as advances to the credit of the consumers' accounts until such time as the bills in dispute have been finally settled.

(3) If the consumer fails to pay any bill presented to him within the said period of 8 days, the licensee shall be at liberty to take action under sub-section (1) of section 24 of the Indian Electricity Act, 1910, and to cutoff the supply after giving such consumer not less than seven days clear notice in writing without prejudice to his right to recover the amount of the bill by suit. Where however, any difference or dispute has been referred under the Act to an Electric Inspector before notice as aforesaid has been given by the licensee, the licensee shall not be at liberty to cut off the supply for failure to pay the bill except where the licensee has made a request in writing to the consumer that the amount in dispute should be deposited with the Electric Inspector and the consumer has failed to comply with such request.

14 System of supply:- Supply of energy shall be given from medium pressure distributing mains on the :-

(a) Three phase four wire Alternating Current system, 50 cycles 400 volts between phases or 230 volts between each phase and neutral wires.

15. Classification of installations:-

A.C.SYSTEM.

(a) 2 wire, single phase, 230 volts-

1. General Supply not exceeding 10 amperes.
2. Motive power installations below 1 B.H.P. in the aggregate

Note:- For domestic pumping installations upto and inclúding 1 B.H.P. in the aggregate single or three fase would be given as available.

(b) 3 wire two phase 230 volts between phase wires, nad neutral -
General supply exceeding 10 amperes but not exceeding 20 amperes.

(c) 4 wire 3 phase 230 volts between phase wires and neutral - -
General supply exceeding 20 amperes.

(d) 3 wire 3 phase 400 volts between phases - -
Motive power installations of 1 B.H.P. in the aggragate and over.

16 General wiring conditions :- (a) Mains - The consumers' mains, shall in all cases be brought back to the licensee's point of supply and sufficient cable shall be provided for connecting up with the licensee's apparatus.

(b) Switches and fuses - The consumer shall provide linked quick break main switches and a single pole fuse on each pole, which shall be fixed as near as possible to the licensee's meter Board.

(c) Balance of installation - If the connected load of any installation exceeds 10 amperes at 230 volts, the installation shall be wired on the group system, separate neutral wires being brought back in each case to the licensee's point of supply. An approved form of linked switch (single pole) with two single pole fuses shall control each main circuit. The lamps, fans or any other apparatus of which the installations consists shall be so grouped that under normal working conditions the current will be balanced and no current will be flowing in the neutral wire.

(d) Medium pressure supply:- With medium pressure supply, i.e. 250 volts to 650 volts, the licensee's meter and service cut-outs should be enclosed in a strong teakwood box suitably ventilated and provided with a hasp, staple and lock. All wires between which a difference of potential of 250 volts or over exists shall be made inaccessible to un-authorised persons or enclosed in an earthed metallic casing or conduit. A Caution Board, printed in English and in Vernacular shall be fixed thereto.

13

(e) AerialMains - In order to save the expense of a long under ground service on private property, a consumer may, with the licensee's approval. erect a pillar on that portion of his property which is nearest to the licensee's supply mains into which the service shall be laid and from which the consumer shall run over-head mains to his premises. These over head mains shall constitute a portion of his installation and shall be laid in complience with the Indian Electricity Rules 1937. An efficient choking coil and lighting arrester may be fixed at the commenc-ement of the overhead line at the consumer's cost should he desire the same, as an additional protection for his installation.

(f) Earthing :- Gas pipes shall on no account be used for earthing purposes.All wiring shall be kept as far as possible from gas and water pipes.

(g) Domestic heating and cooking;- A special circuit for heating and cooking shall be run from the licensee's point of supply. Wall plugs used on these circuits shall be of the three pin type,the third pin being an earth connection.Two pin plugs or lighting sockets shall not be allowed.

(h) Plugs :- All plugs shall be switched on the live wire and not on the neutral.

(i) Wiring:- Single leads shall not be run separately in iron conduits.

(j) (1) A.C.Motor Installation :- Motors shall be provided with control gear so as to prevent satisfactorily the maximum current demand from the consumers installation exceeding the limlits given in the following schedule at any time under all possible conditions. Failure to comply with these regulations will render the consumer liable to dis-connection from the supply on account of interference with the supply to other consumers :-

Nature of Supply	Size of installation	Limit of maximum current demanded
Single Phase	Up to and including 1B.H.P.	Six times full load current
Three Phase	Above 1B.H.P. and upto and including 10B.H.P.	... Three times full load current
	Above 10B.H.P. and up to and including 15B.H.P.	... Twice full load current
	Above 15 B.H.P.	... One and half a time full load current

Motor circuits shall be controlled by a triple pole switch protected by a no-volt release and T.P. fuse (Or over load release). It is important that the release should be maintained in thorough working order.Wiring for motors shall be run with all three phase wires bunched in single mattalic conduit, which shall be efficiently earthed throughout and connected to the frame of the motor from which two separate earth wires shall be run. The minimum size of the earth wire permitted is No. 10 or 2/14 S.W.G. All motors shall comply in every respect with the Indian Elctricity Rules 1937.

Motors above 4 B.H.P. should be woung up for 3 phase, 400 volts between phases. Motors above 5 B.H.P. should be slip ring type.(See note under clause 15)

(k) Power factor of apparatus:- The apparatus should have a power factor of not less than 80 percent. at normal working loads.

17. Saving of rights of licensee and Consumers:- Nothing in these conditions shall abridge or prejudice the rights or remedies of the licensee and the consumer under the licence, the Indian Electricity Act. 1910 or the Indian Electricity Rules 1937.

Annexture "A"

Requisition for Supply of Energy

Installation No. _____ Service No. _____

In order that prompt action may be taken, the intending consumer is requested to ensure that the particulars called for below by the COMPANY ARE FULLY AND CLEARLY FILLED IN.

Intending Consumers are requested to fill in and sign this form

To,

The Kanara Electric Supply Co. Ltd., Sirsi, (North Kanara)

I / We hereby require you in accordance with clause VI of schedule to the Indian Electricity Act 1922, within one month from the date of this requisition to supply Electrical Energy for the premises owned / tenanted by Mr. _____ and situated within the "AREA OF SUPPLY" specified in the Sirsi Electric License, 1949, for the following :

Nature of demand	No. of Points	Wattage of Points	B. H. P. of Motors	Voltage of Motors	Total Demand	No. of Motors	Remarks
Lighting :

IMPORTANT NOTICE

No connection will be given to any consumer whose installation has not beeu carried out by a Licenced Electrical Contractor and under the direct supervision of a competency Certifiecate Holder (vide Government Notification (P. W. D.) No..640-27-1 dated 15th November 1634).

" ANNEXURE B "

An Agreement made this day of Onethousandnine hundred and fifty between (hereinafter referred to as the licensee, which expression shall, unless excluded by or repugnant to the context, be deemed to include his successors and permitted assigns) of the on-epart and (hereinafter referred to as ' The consumer' which expression shall unless excluded by or repugnant to the context include his heirs, executors, administrators and assigns) of the other party.

Whereas the Licensee has agreed to supply and the consumer has agreed to take energy at the premises mentioned in the Schedule hereto (hereinafter referred to as'thesaid premises') subject to he terms and conditions hereinafter contained .

Now it is hereby agreed by and between the parties hereto as follows :-

1. The Licensee shall from the day of 19 and during the continuance of this agreement, supply the consumer with the energy required by him for the purpose and up to the maximum quantity specified in the Schedule hereto.
2. The consumer shall pay to the Licensee on demand the cost of so much of any electic supply line as may be laid for the purpose of supply upon the said premises and of so much of any electic supply line as it may be necessary to lay for the said purposes in excees of 100 feet from the Licensee's distributing main, although not on the said premises.
3. The supply shall be registered by a meter or meters in or upon the said premises which the Licensee shall provide and keep in order and replace whenever necessary on payment of the monthly rental in force from time to time. The consumer shall be at liberty at any time to purchase another meter or meters and from and after the purchase thereof the consumer shall be responsible for keeping the same in proper order.
4. The consumer shall pay to the Licensee for the energy so supplied and registered as a-fore-said at the rates from time to time in force and paid by similar consumers; Provided nevertheless that if at the end of twelve calendar months calculated fromm the first day of the month following that in which the supply was first commenced and at the end of each subsequent period of twelve calendar months during which this agreement is in force, the registered consumption of energy shall fall short of Rs the value of being equivalent of such guaranteed minimum consumption as is specified in the Schedule hereto, the consumer shall pay to the Licensee the difference between the registered consumption at the rate per Boa rd of Trade unit applicable thereto; Provided further that in the event of a minimum consumption not being guaranteed the consumer shall pay to the Licensee for each calendar month during which this agreement id in force a sum which shall not be less than the Licensee's prescribed minimum monthly charge.
5. Readings of the meters or meters shall be taken by the licensee once in each month or at such other intervals or times as the Licensee shall deem expedient and the Licensee's meter readers shall have access to the consumer's premises at all reasonable times for the purpose of taking such readings. Payment for energy supplied shall be made by the consumer according to the readings of each meter forthwith upon presentation of a bill therefor.
6. Should the consumer dispute the accuracy of any meter not being his own property, the consumer may upon giving notice and paying the prescribed fee have the meter officially tested by the licensee or the Electric Inspector, Bombay, in accordance with section 26 of the Indian Electricity Act, 1910. In the event of the meter being tested by the Licensee and found to be beyond the limits of accuracy as prescribed, the testing fee shall be returned and the amount adjusted in accordance with result of the test taken in respect of the meter readings of the three months prior to the month in which the dispute has a arisen due regard being paid to conditions of occupancy during the month under dispute and during the previous three months. In the event of the test being undertaken by the Electic Inspector, Bombay, and the mater being found to be incorrect, the period during which the meter shall be deemed to have been incorrect, and the amount of energy supplied to the consumer during the this period shall be decided by the Electric Inspector, Bombay.
7. The consumer shall, on receipt of a requisition from the Licensee in this behalf deposit with him the sum of Rs as security for the purpose next hereinafter mentioned , and shall on a like requisition from time to time renew or replenish such security in the event of the same becoming exhausted or insufficient. The Licensee shall be at liberty at any time and from time to time to appropriate and apply any security so deposited as aforesaid in or towards the payment or satisfaction of of all or any moneys which shall become due or owing by the consumer to the licensee in respect of the supply of energy or otherwise under this agreement but the provisions in this clause contained shall not prejudice any other remedy to which the licensee may be entitled for the recovery

may be entitled for the recovery..... 19

of any such moneys. Ineterest on such deposits shall be ~~xxxx~~ paid to the consumer in accordance with the terms laid down in the licensee's conditions for the supply of energy.

8 This agrrement shall be in force for a period of not less than two years in the first instance from the date of commencement of the supply specified in clause I and therafter shall continue from year to year until the agreement is ~~xxxxxxxxx~~ determined~~x~~ as hereinafter provided.

9 The consumer shall not be at liberty save with the consent of the licensee to determine this agreement before the expiration of two years from the da te of commencement of the supply of energy hereunder. The consumer may determine this Agreement at any time after the said period on giving to the Licensee not less than one clendar month's previous notice in writing in that behalf and upon the expitation of the period of such notice this agreement shall cease and determine without prejudice to any right which may then have accrued to the licensee~~xxxxx~~ hereunder; Provided always that the consumer may at any time with the previous consent of the licensee transfer this Agreement to any other person and upon ~~xxxxxxxxx~~ subscriptionof such transfer this agreement shall be binding on the transferee~~xxx~~ and the licensee and take effect in all respects as if the transfere had originally been a party hereto in place of the consumer who shall thence forth be discharged from all liability under or in respect hereof.

10. This Agreement shall be read and construed as subject in all respects to the provisions of the Sirsi Electric License, 1949, and to the provisions of the Indian Electricity Act, 1910 and the rules for the time being in force thereunder as far as the same may respectively ~~xxxxxxxxx~~ be applicable.

The supply of energy under this Agreementis also subject to the following among other ~~xxxxxxxxx~~ provisions of law, namely :-

(i) If the consumer fails within seven days after the date of the service ~~xxxxx~~ thereof upon him to comply with the terms of any notice in writing by the Licensee requiring him to give security for the purposes mentioned in clause hereof or to renew or replenish any security which may have been given for these purposes but which may have become exhausted or insufficient, the Licensee may discontinue the supply so long such failure continues .

(ii) If the consumer adopts any form of lamp or burner or uses the energy supplied ~~xxx~~ or deals with it in any manner so as to unduly or improperly to interfere with the effecient supply of energy to any other person by the licensee or fails to keep in proper order any meter belonging to him by which the supply is registered, the licensee may discontinue the supply so long as such lamp or burner is so adapted or the energy is so used or dealt with or the meter is not kept in proper order, as the case may be.

(iii) The Licensee shall not be bound to give or continue the supply if ~~xxx~~ an Electric Inspector or other competent person appointed by the local Government is satisfied that the electric lines, fittings, works or any other apparatus within the said premises are not in good condition and are likely to affect injuriously the use of energy by the licensee or by ~~xxx~~ other persons. Nor will the licensee be responsible for any interruption or deminition in the supply of energy due to occurrences beyond his control.

(iv) If the consumer makes any alterations or additions to any electric wires, fittings, works or apparatus belonging to him within the said premises, all such alterations and additions shall be notified to the licensee by the consumer before being connected to the source of supply with a view to their being examined and tested.

The SCHEDULE REFERRED TO ABOVE

1. Discription of the premises ;-
2. Purpose for which the supply is to be given:-
3. Maximum Quantity of energy required by the consumer :-
4. Value of guarnateed consumption for each period of twelve calendar months, commencing from the day of 19

In witness whereof for and on behalf ~~xxx~~ of the licensee has/have set his/their hand/hands and the seal of the Licensee and the consumer has set his hand hereunto the day and year first above written.

SIGNED, SEALED and DELIVERED BY
for and on behalf of the Licensee.

SIGNED AND DELIVERED BY
the consumer.

Subject:- Conditions for Supply of Energy .....

+ put it on the case board

Sir,

We submit herewith four + copies of draft of conditions of Supply and Miscellaneous charges to consumers in the Area covered by the Sirsi Electric License 1949.

These conditions have been drafted according to the model proposed by Government. Very few changes have been inserted to suit modern conditions and also after studying many other conditions of supply which have been recently approved by Government in respect of various Electric Licenses in the State. The rates and Miscellaneous charges proposed by us , we believe, will not be more during present abnormal times. Therefore we submit that, you would be pleased to accord your sanction to the Draft proposed by us.

We further submit the following facts for your kind consideration.

Transmission lines in the whole area of Supply have been erected and are nearing completion. Switch Board and Engines too have been erected. Other work to complete the scheme is now taken up in hand. We expect to commence the supply of energy to consumers during the First Week of September and therefore request that you would grant provisional sanction to the conditons submitted herewith, so that the Power House may start working as early as possible.

Encl:- 4 Copies of Conditions

Yours faithfully,

Secretary

Dear Sirs,

With reference to the correspondence ending with Government Letter No.3046-E1(I), dated the 27th September 1950, I am directed to state that Government is pleased to sanction the conditions of supply and miscellaneous charges, Parts I and II, for the supply of electrical energy at Sirsi in the form submitted by you (copy enclosed). I am to request that when the "conditions etc." are finally pointed, six copies thereof may be supplied to Government and four copies to the Electrical Engineer to Government direct".

Yours faithfully,

24/1/51

Deputy Secretary to the Government of Bombay,
Public Works Department.

Sir,

Receipt sent. enclosed

Re. : Conditions of supply

pp 37-8

I am submitting herewith the six copies of conditions of supply duly printed. We regret that there was unconsiderable delay in submitting the printed copies, as there are no prompt presses working in this part of the area. However the matter was got printed. There are many printing mistakes which has been corrected. The delay may please be excused.

As desired by you four copies of conditions of supply are forwarded to Electrical Engineer to the Government of Bombay. Kindly acknowledge and oblize.

Yours faithfully,

Secretary.
